Artist Statement: "Hello! I am a higher educator in the San Antonio area (teacher development and student development). Looking to put my peculiar touch, I cover songs that have in some way inspired me. I have been intermittently working on writing my own songs, but, in the meantime, I hope you enjoy my uploads of covers from artists who have had an influence on my work and other recordings of mine. I am open to any music, but I default towards folk, folk rock, country folk, Americana, blues (Chicago, Delta, Texas, etc.), and music from the 60s/early 70s, including the Beatles, Bob Dylan, Townes Van Zandt, the Youngbloods, Blaze Foley. My other interests include learning, contemplating, traveling, and discussing society's issues. Feel free to subscribe on YOUTUBE and follow on Twitter, especially fellow musicians. I will subscribe/follow back. If you are interested in my playing at an event or occasion or would like to collaborate, see my email below to contact me.
