Artist Statement: Having descended down into South Texas through the Hill Country one day long ago, Dick never claimed to be Texan, but his German heritage and love for tacos is something he shares with the inhabitants of the region. Having earned an MFA from Miami University, OH, he spent the worst years of his life up north, maturing artistically and refining an Iconoclastic Pop Art™ style shaped by his experiences as a recovering Catholic, cancer survivor and optimistic existentialist. He lives and works in his humble turquoise studio-home (Dick's WurstHaus Art Shanty) near downtown San Antonio.
